SUMMARY

PEC-accredited Software Engineering student at Bahria University with hands-on experience developing full-stack web applications using ASP.NET Core MVC, C#, React, Entity Framework Core, and SQL Server. Passionate about building scalable software solutions, writing clean and maintainable code, and continuously learning modern software development technologies.

SKILLS

Programming Languages: C#, C++, Python, JavaScript, SQL

Frontend: React, HTML5, CSS3

Backend: ASP.NET CORE MVC, Entity Framework Core, Flask, PHP

Databases: SQL Server, SQL developer, SQLite

Tools & Technologies: Git, Github, Visual Studio, VS Code, SSMS

Core Concepts: OOP, DSA, DBMS, OS, Software Engineering, Software Requirements Engineering

EXPERIENCE

Software Developer Intern

Bahria Town Pvt. Ltd., Islamabad

June 2026 - Aug 2026

- Developed modules for a Property Management System using **ASP.NET Core MVC, C#, React, Entity Framework Core, and SQL Server**.
- Built responsive user interfaces and implemented CRUD functionality.
- Collaborated with developers using Git/GitHub while debugging and testing application features.

Backend Developer Intern

BiSol Labs (Remote)

July 2026 - Aug 2026

- Contributed to backend and frontend development using Next.js, React, and Git.
- Implemented new features, fixed bugs, and improved application performance.
- Collaborated with developers in an Agile remote environment.
- Created technical and promotional content for the company's social media platforms.

Software Development Intern

Airblue Headquarters, Islamabad

July 2025 - Aug 2025

- Assisted in software development using Python and C++.
- Applied Object-Oriented Programming principles and integrated SQLite databases.
- Participated in debugging, testing, and maintaining software modules.

Web Development Intern

TechDev Systems, Islamabad

Aug 2025 - Sept 2025

- Developed responsive web pages using HTML, CSS, JavaScript, and PHP.
- Improved website user interfaces and implemented frontend enhancements.
- Collaborated with the development team to deliver new features.

PROJECTS

Property Management System:

- Developed an enterprise property management system using ASP.NET Core MVC, C#, Entity Framework Core, and SQL Server during my internship at Bahria Town.

Personal Portfolio Website:

- Built a responsive portfolio website using React to showcase projects, skills, experience, and certifications.

Event-Driven Traffic Alert System:

- Developed a Flask-based traffic monitoring system implementing event-driven architecture and the Observer Design Pattern.

School Management System:

Designed and developed a Python-based school management system with SQL database integration for managing students, attendance, fees, and results.

Restaurant Management System:

- Built a C++ console application using OOP principles for menu management, order processing, and billing.

Linux System Monitoring & Automation Tool :

- Developed Bash scripts to monitor system resources and automate routine Linux administration tasks.

Spotify Clone:

- Created a responsive Spotify-inspired music player interface using HTML, CSS, and JavaScript.

EDUCATION

Bahria University, Islamabad

(2024 - Present)

- BS Software Engineering
- Expected Graduation: **2028**
- CGPA: **3.4/4.0**

Relevant coursework:

- Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Design & Analysis of Algorithms, Software Requirements Engineering, Discrete Structures

ACTIVITIES & CERTIFICATIONS

Microsoft Learn Student Ambassador Society (BSEAS)

(2024 - Present)

- Assisted in organizing the AUREX AI Tech Event and other technical events.
- Microsoft Learn Student Ambassador (MLSA) Certificate Holder (2024–25, 2025–26).
